

LEARNING AND TEACHING

Our curriculum is driven by the Victorian Curriculum. As the Department of Education and Training recommends, we use the Abilities Based Learning and Education Support (ABLES) as an assessment tool for reporting. Learning areas and Capabilities include: English, Maths, Science, History, Geography, Civics and Citizenship, Personal and Social Capabilities, Performing Arts, Physical Education, and Visual Arts.

Broadmeadows SDS has a School Wide Positive Behaviour Program and has developed a school culture that is reflected by the ideals of positive learning support. Our school philosophy is reflected in its engaging programs and based on the belief that children learn best in a co-operative environment that is happy, challenging and supportive.

THERAPY

More than 25 therapists work alongside teachers, education support staff and parents to support students to access their educational programs.

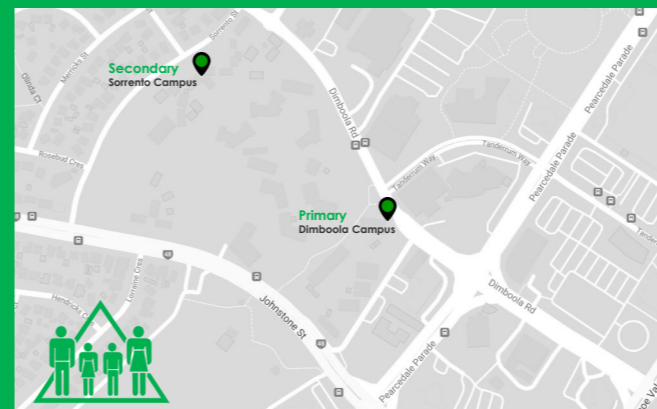

Therapists see each class several times a week so your child will have regular contact with Speech Pathologists and Occupational Therapists (and Physiotherapists if required).

Primary DIMBOOLA CAMPUS
29-35 Dimboola Road Broadmeadows

Secondary SORRENTO CAMPUS
30-40 Sorrento Street Broadmeadows

ABOUT US

Broadmeadows SDS provides educational and therapy programs for primary and secondary school -aged students with intellectual disabilities within the moderate to profound range. Many students also have Global Development Delay, or combinations of hearing impairments, sensory and physical impairments, and Autism Spectrum Disorder.

The school has a current enrolment of over 340 students. All students will have an initial assessment by an Educational Psychologist on entry to the school. We arrange this for you at no cost.

OUR FACILITIES

The school has two sites, the main campus on Dimboola Road which serves as the campus for primary years and a Sorrento Street campus for the secondary students.

Learning areas include well equipped classrooms, dedicated specialist spaces and outdoor learning zones. The school is a modern purpose built facility located in the Melbourne suburb of Broadmeadows and provides an attractive and safe environment.

Students attend daily from 8.50am to 3:00pm. Eligible school-aged students living within the designated transport zone have access to free transport to and from school.
